

CESSNA 172K AIRCRAFT RENTAL POLICY

Aircraft: Cessna 172K

Registration: N84412

Aircraft Owner/Operator: Vinod Sohini

Effective Date: _____

1. PURPOSE

This Aircraft Rental Policy establishes the requirements, procedures, and responsibilities applicable to any pilot renting and operating the Cessna 172K identified above.

The purpose of this policy is to promote safe operation of the aircraft, protect the aircraft and its occupants, and establish clear expectations regarding rental, scheduling, payment, maintenance, and pilot responsibilities.

All renters must comply with this policy, applicable Federal Aviation Administration (FAA) regulations, the aircraft's approved operating limitations, Pilot's Operating Handbook/Airplane Flight Manual (POH/AFM), placards, and any additional operating restrictions established by the aircraft owner/operator.

2. PILOT ELIGIBILITY

A renter must meet all applicable FAA requirements and the following minimum requirements established by the owner/operator:

- Hold a current FAA pilot certificate appropriate for the intended operation.
- Hold a current FAA medical certificate or BasicMed qualification, when applicable.
- Possess a current government-issued photo identification.
- Meet applicable flight review and currency requirements.
- Meet all applicable passenger-carrying currency requirements if carrying passengers.
- Provide satisfactory evidence of pilot qualifications upon request.
- Successfully complete the aircraft checkout requirements described below.
- Demonstrate sufficient knowledge and proficiency in the Cessna 172K to the satisfaction of the owner/operator or designated instructor.

The owner/operator reserves the right to require additional training or proficiency verification before approving a pilot for rental.

3. AIRCRAFT CHECKOUT

Prior to the first rental flight, each pilot must successfully complete an aircraft checkout.

The checkout may include:

1. Review of aircraft systems and limitations.
2. Review of the POH/AFM.
3. Preflight inspection.
4. Normal and abnormal procedures.
5. Engine starting and shutdown procedures.
6. Taxi operations.
7. Normal takeoffs and landings.
8. Short-field and soft-field operations, as appropriate.
9. Stall recognition and recovery.
10. Emergency procedures.
11. Engine failure procedures.
12. Crosswind operations.
13. Any additional maneuvers or procedures deemed appropriate by the instructor or owner/operator.

The owner/operator may require an FAA-certificated flight instructor (CFI) to conduct the checkout.

Approval to rent the aircraft is at the sole discretion of the owner/operator and may be suspended or revoked whenever the pilot's proficiency or judgment is considered inadequate.

4. PILOT RESPONSIBILITY

The renter is responsible for determining whether each flight can be conducted safely and legally.

The renter shall:

- Conduct an appropriate preflight inspection.
- Verify fuel quantity and fuel requirements.
- Review weather and NOTAMs.
- Confirm aircraft weight and balance.
- Confirm runway performance and operating limitations.
- Operate the aircraft within all applicable limitations.
- Properly secure the aircraft after each flight.
- Report any discrepancy, damage, malfunction, or abnormal condition immediately.
- Record aircraft time accurately.
- Return the aircraft in the condition in which it was received, subject to normal wear and tear.

The renter shall not knowingly operate the aircraft in an unsafe or unairworthy condition.

5. AUTHORIZED USE

The aircraft may be used only for lawful operations consistent with the aircraft's certification and the pilot's qualifications.

Unless specifically authorized in writing, the renter may not:

- Rent or lease the aircraft to another person.
- Allow another pilot to operate the aircraft.
- Use the aircraft for commercial operations.
- Conduct flight instruction as a commercial operation.
- Conduct banner towing, aerial photography, skydiving, or other specialized operations.
- Operate the aircraft outside the United States.
- Operate from unimproved or unapproved surfaces.
- Perform aerobatic maneuvers.
- Operate in conditions exceeding aircraft or pilot limitations.

Any other special operation requires prior written authorization from the owner/operator.

6. PASSENGERS

Passengers are permitted only when the pilot is legally qualified and current to carry passengers.

The pilot is responsible for ensuring that passenger operations comply with all applicable FAA regulations and aircraft limitations.

The pilot shall ensure that passengers receive appropriate safety instructions before flight, including the use of seat belts and emergency procedures.

7. RENTAL RATE AND BILLING

Aircraft Rental Rate - DRY: \$150.00 per Hobb hour

Minimum Rental: \$150.00 / 1 Hobb hour /per day

Overnight/Extended Rental: \$ 450.00 per day, if applicable

Time Building hours: Contact owner for special / bulk Hobb hour rates.

The aircraft rental period begins when the aircraft is released to the renter and ends when the aircraft is returned, properly secured, and made available to the owner/operator.

Unless otherwise specified, the renter is responsible for:

- Aircraft rental charges.
- Fuel used during the rental.
- Landing, parking, ramp, or tie-down fees attributable to the renter.
- Overnight fees, if applicable.
- Any other charges specifically agreed upon before the rental.

Payment is due after **the completion of flight.**

Late or unpaid charges may result in suspension of rental privileges.

8. FUEL

The renter shall return the aircraft with fuel at the level specified by the owner/operator – **Top it off after each use.**

If the aircraft is returned with less than the required fuel level, the renter may be charged for the fuel required to restore the aircraft to the required level plus any applicable service charge.

9. SCHEDULING AND CANCELLATION

Aircraft reservations must be made through the designated scheduling system or directly with the owner/operator.

Cancellation Policy:

- Cancellations made more than 24 hours before the scheduled flight: **No charge.**
- Cancellations made less than 24 hours before the scheduled flight: **\$ 25% of every reserved hour.**
- Failure to appear for a scheduled reservation may result in the applicable minimum rental charge. **\$100.00 / hour for every reserved hour / and or \$450.00 per day charge for extended overnight rental.**

The owner/operator may cancel or restrict a reservation because of weather, maintenance, aircraft availability, or other safety considerations.

No renter shall be charged for an owner/operator cancellation caused by an aircraft maintenance or safety issue.

10. WEATHER AND FLIGHT CONDITIONS

The renter is responsible for making an independent determination regarding weather suitability.

The aircraft shall not be operated when weather conditions are beyond the pilot's qualifications, experience, or personal minimums or when operation would be unsafe.

The owner/operator may prohibit flight when known or anticipated conditions present an unreasonable risk to the aircraft or occupants.

Examples include, but are not limited to:

- Severe thunderstorms.
- Known or forecast icing beyond the aircraft's approved capability.
- Excessive winds or crosswinds.
- Runway conditions considered unsafe.
- Density altitude conditions exceeding aircraft or pilot limitations.
- Other hazardous conditions identified by the owner/operator.

11. MAINTENANCE AND AIRWORTHINESS

Only the owner/operator or an appropriately authorized maintenance provider may perform maintenance, repairs, alterations, or adjustments to the aircraft.

The renter shall not attempt to repair or modify the aircraft without prior authorization.

If a mechanical problem occurs during a rental, the pilot shall:

1. Safely land the aircraft as soon as reasonably practical when required.
2. Notify the owner/operator.
3. Record the discrepancy in the aircraft maintenance/logbook system as directed.
4. Obtain authorization before arranging non-emergency maintenance whenever practical.

The renter shall not return an aircraft with a known unresolved safety-related discrepancy without notifying the owner/operator.

12. AIRCRAFT DAMAGE

The renter shall immediately report any accident, incident, hard landing, propeller strike, runway excursion, ground contact, or other event that could have caused damage to the aircraft.

The aircraft shall not be flown following an event that may affect its airworthiness until appropriately inspected and released for flight.

The renter may be financially responsible for damage caused by:

- Negligence.
- Misuse.
- Intentional acts.
- Operation outside aircraft limitations.
- Unauthorized operations.

- Failure to follow applicable procedures.
- Failure to report damage or an aircraft discrepancy.

Responsibility for ordinary wear and tear or mechanical failure unrelated to renter negligence shall remain with the owner/operator.

13. ACCIDENT OR INCIDENT PROCEDURES

In the event of an accident or serious incident, the pilot's first priority shall be the safety of all occupants and persons on the ground.

The pilot shall:

1. Obtain emergency assistance when necessary.
2. Secure the aircraft when safe and practical.
3. Notify the owner/operator as soon as reasonably possible.
4. Comply with all applicable FAA/NTSB reporting requirements.
5. Preserve aircraft records and evidence.
6. Provide a factual account of the event to the owner/operator and appropriate authorities.

The pilot shall not admit liability or make speculative statements regarding the cause of an accident.

14. PERSONAL PROPERTY

The owner/operator is not responsible for loss, theft, or damage to personal property left in the aircraft.

Renters are responsible for securing their belongings.

15. AIRCRAFT SECURITY

When the aircraft is unattended, the renter shall:

- Secure the aircraft in accordance with owner/operator procedures.
- Lock the aircraft when appropriate.
- Secure doors, windows, controls, and other equipment as applicable.
- Protect the aircraft from unauthorized access.
- Park or tie down the aircraft in an approved location.

The renter shall not leave the aircraft unattended in an unsecured location unless specifically authorized.

16. OPERATING RESTRICTIONS

Unless specifically approved by the owner/operator, the following are prohibited:

- Aerobatic flight.
- Intentional spins.
- Flight into known severe icing.
- Operation beyond published aircraft limitations.
- Unauthorized night operations.
- Unauthorized off-airport operations.
- Unauthorized commercial operations.
- Flight instruction by an unauthorized instructor.
- Allowing an unauthorized pilot to operate the aircraft.
- Any operation that violates FAA regulations or the aircraft's approved limitations.

17. INTERNATIONAL OPERATIONS

International operations require prior written approval from the owner/operator.

The renter must comply with all applicable customs, immigration, insurance, registration, and regulatory requirements.

No international flight may be undertaken without confirmation that the aircraft's insurance and operating authorization permit the proposed operation.

18. INSTRUCTOR OPERATIONS

Flight instruction in the aircraft may be conducted only by a CFI approved by the owner/operator.

The renter shall notify the owner/operator before scheduling instruction with a CFI who has not previously been approved.

The owner/operator may require additional aircraft checkout or instructor qualification verification.

19. INSURANCE

The renter acknowledges that aircraft insurance coverage may contain limitations, exclusions, deductibles, pilot requirements, geographic restrictions, and other conditions.

The renter may be required to provide evidence of renter's insurance of coverage minimum of \$125,000.00 (hull Coverage) or non-owned aircraft insurance before receiving authorization to operate the aircraft.

Any insurance requirement shall be communicated to the renter before rental privileges are granted.

20. PILOT IN COMMAND

The renter acknowledges that the pilot acting as Pilot in Command (PIC) retains responsibility for the safe and legal operation of the aircraft.

Nothing in this rental policy relieves the PIC of responsibilities imposed by applicable FAA regulations.

21. SUSPENSION OR TERMINATION OF RENTAL PRIVILEGES

The owner/operator may immediately suspend or terminate rental privileges for:

- Unsafe operation.
- Violation of FAA regulations.
- Violation of this policy.
- Failure to pay rental charges.
- Unauthorized aircraft use.
- Misrepresentation of pilot qualifications.
- Damage caused by negligence or misuse.
- Failure to report an accident, incident, damage, or mechanical problem.
- Any conduct that, in the reasonable judgment of the owner/operator, creates an unacceptable safety risk.

22. ACKNOWLEDGMENT

By signing below, the renter acknowledges that he/she has received, reviewed, and agrees to comply with this Cessna 172K Aircraft Rental Policy.

The renter further acknowledges that this policy does not replace or supersede applicable FAA regulations, the aircraft's POH/AFM, operating limitations, airworthiness requirements, or applicable law.
